

WHO WE ARE

Established in 1994, the **North American Development Bank (NADB)** works to enhance the quality of life for people who live along the U.S.-Mexico border through cleaner water, air and land. Owned entirely by the United States and Mexican Governments in equal shares, NADB helps develop and finance environmental infrastructure in communities on both sides of the border through a variety of services and programs that encourage sustainable development and improve the environment.

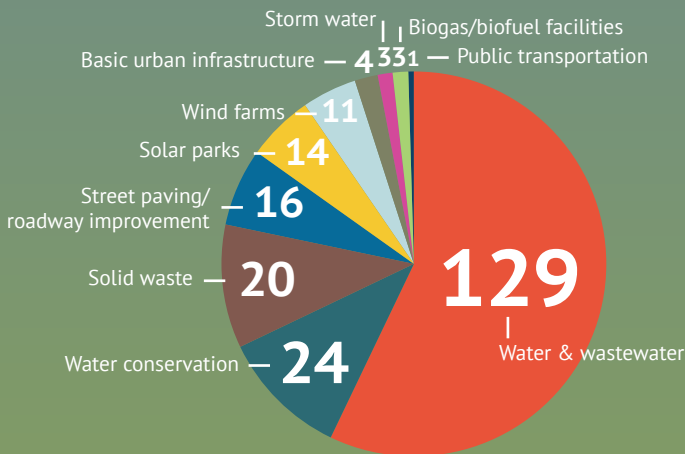

NADB's total authorized capital is
US\$3 BILLION:
 • US\$225 million is paid-in capital &
 • US\$1.275 billion in callable capital
PER COUNTRY

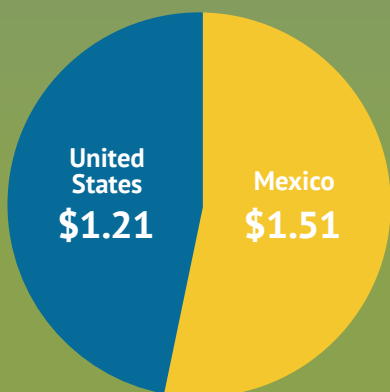

OUR IMPACT

NADB is transforming border communities through sustainable infrastructure benefiting 15 million residents on both sides of the U.S.-Mexico border.

Projects Funded

Funding Distribution (US\$ Billions)

Water

363 mgd of new or improved capacity for wastewater treatment

468 mgd of sewage collected and treated along the entire border

404 mgd of water savings estimated per year

Air

2.86 million metric tons/yr. of CO₂ emissions displaced, equivalent to eliminating

604,405 passenger vehicles from the roads

14 communities with less vehicular dust (PM₁₀) through newly paved or rehabilitated roadways

Land

38 communities with improved waste collection and disposal services for

1,550 tons a day of waste per day

WHERE WE INVEST

Location and number of projects by state
